Getting data from a file

Getting data from (or to) a file

If file on DB server:

- How did it get there?
- How does client know about it?

If file on client:

- How does DB server get access?

PostgreSQL

Adding data to a table from a file

Server file: `COPY Product FROM '/my/path/product.csv' CSV HEADER;`

Must be logged in as a superuser, e.g., postgres. Server app must have file permission.

Client file: `\copy Product FROM '/my/path/product.csv' CSV HEADER`

Must use psql.

prod_name	prod_price	prod_manufacturer

```
prod_name, prod_price, prod_manufacturer
Gizmo,19.99,GizmoWorks
Powergizmo,39.99,GizmoWorks
Widget,19.99,WidgetsRUs
HyperWidget,203.99,Hyper
```

prod_name	prod_price	prod_manufacturer
Gizmo	$19.99	GizmoWorks
Powergizmo	$39.99	GizmoWorks
Widget	$19.99	WidgetsRUs
HyperWidget	$203.99	Hyper
